Ann Arbor	7am - 4pm	7am - 4pm	Open on Request.

Please contact our Milan office with any questions.

New Material at Milan

Stone is once again being crushed at our London Aggregates Milan plant. While we do not have intentions of opening the plant on permanent basis we had raw material that had not been processed left over from our prior excavation. The crushing of this stone has made it the following materials available again.

Material	List Price
MDOT 6AA	\$ 7.70
MDOT 25A	\$ 7.35
3/8" Screenings	\$ 4.50

We look forward to servicing your needs on these materials at this location again.

Denniston Swipe Pass

We are adding a card reader system that will identify each truck, their current weight, the material they are hauling, who we are billing, and where the material is going. Once all of this information is set up all the driver will have to do is pass their swipe card through our system, get loaded, and get their ticket. These hand held cards are about the same size as your average credit card. This system is completely interactive with our Maybee location so the cards will work either place. In addition to the card system we added an outbound ticket booth where drivers can now pick up their tickets without getting out of their trucks.
