Safety First

Sudden cardiac arrest strikes without warning. It knows no boundaries, claiming hundreds of thousands of lives around the world every year. People of all ages, races, languages, fitness levels and walks of life succumb to it and most don't survive. Sudden cardiac arrest can leave a tragic void in families, workplaces and communities. Stoneco has purchased four Lifepak CR Plus Defibrillators to help protect our customers and employees. The defibrillators are located at our Maybee Office, Ottawa Lake Office, Newport Office, and Denniston Shop. Our employees are trained to use the defibrillator, it's important to contact somebody on site immediately because time is critical. Survival rates plunge seven to ten percent every minute without defibrillation.
