## Safety First

We recently added a safety section to our website [www.stoneco.net](http://www.stoneco.net). The section includes the number of days since a lost time incident at our quarries. The most important part of our business at Stoneco of Michigan is our employees. That importance has kept safety at the top of our priority list. Nothing is more important than each of our miners returning safely to their loved ones every night. That emphasis on safety has come from a "Top-Down" attitude. All meetings that happen at Stoneco of Michigan start with a safety discussion, from upper management meetings to our weekly Tool Box talks to annual MSHA refreshers to Safety Stand-downs where all of our operations are shut down to allow employees to attend division wide safety meetings. Safety is always first at Stoneco of Michigan!

## Stoneco Job Fair

Stoneco will hold its first annual job fair on Friday, May 12<sup>th</sup>. There will be 12 booths covering professions including welding, manufacturing, concrete production, asphalt production, quarrying, safety, administration, and many other areas of the construction industry. The job fair is intended to inform twelfth grade students of the jobs available to them in our industry in addition to college courses that can help them plan for a career in a more specialized area. The event is being held at our Ottawa Lake Quarry and will include a tour of our new plant. The event is expected to represent 5 different schools and over 70 students.

## Maybee Detour

With construction on Sumpter Road the attached are construction routes to and from our Maybee Quarry.
