## Safety First

Stay Alert! On August 29, 2006, MSHA (*Mine Safety Health Administration*) released a fatalgram involving a loader operator who struck a 61 year old contractor paving supervisor with 31 years of experience. The operator was traveling near the shop with a loaded bucket several feet off the ground blocking the operator's view. During the fall season we need to make sure that everyone stays alert because of limited amount of daylight. Please beware of your surroundings and report any areas at our locations that illumination could help improve. Please continue to work safely, all the Stoneco Quarries have worked two years without a Lost Time Accident!

## New Ida Sand Pit Location

Come and visit the new Ida Sand Pit conveniently located just two miles off 23. Take 23 to Exit 13 Ida West Road, take Ida West Road East to Lowe road (*about 1 Mile*), take Lowe Road North (*about 1 Mile*) to 2629 Lowe Road on the east side of the road. The virgin fill sand from this location is good for use in Monroe County septic beds and would prove to be excellent back fill for any project. We also carry topsoil at this site both screened and unscreened please call for availability on the topsoil. Are there any additional materials that we could stock at this location to make customer service easier for you? With the close proximity of Ottawa Lake limestone needs should be able to be covered from that location. The sand at this site is priced at \$2.45 per ton. Please contact a Stoneco sales person with any questions.

## E - Communication

The world wide web continues to work its way into our modern world and the way we do business. In an effort to get you all the pertinent information we can about our business, we would like your email address. If you would like to receive this newsletter and additional information like hour changes, and holiday hours by email please send your e-mail address to Susan at [sfoote@stoneco.net](mailto:sfoote@stoneco.net). Also past newsletters and up to date information including current hours and special events can also be found at [www.stoneco.net](http://www.stoneco.net).

## Service Recognition

We would like to recognize a couple of employees that retired from Stoneco this month. Doug Crego who served 19 years at the Maybee Quarry, his duties included crusher operator, hammer operator, and foreman. Doug was one of the most liked employees at the operation and will be dearly missed. Bill McMullen who served 42 years at the Stoneco Denniston quarry and before that at the France Stone Quarry in Monroe as the Yard Customer Service Loader. Bill is a great guy, a hard worker, and one of the best loader operators in the company, he too will be dearly missed. We would like to wish both of these men the best of luck in retirement!
