Safety First

Slip and falls accidents are the most common type of accident for this time of year. While we are in the middle of the mildest winter in recent history and there hasn't been a whole lot of snow and ice this can be easy to forget. The old saying goes "If you don't like the weather in Michigan give it a minute and it will change", keeping that in mind cold weather is coming. Please take the extra time to be safe during these slick times and remind any drivers coming to any of our locations to do the same.

Commercial Considerations

At many of our operations we carry commercial grade products. Our commercial materials are materials that do not always meet the Michigan Department of Transportation specifications. While all of our locations that carry commercial grade products also stock their MDOT (*Michigan Department Of Transportation*) counterparts the commercial grade products are less expensive and will

Commercial Materials & Locations That Stock Them

MATERIAL	OTTAWA LAKE	MAYBEE	NEWPORT	DENNISTON
6AA	Please Call	Yes	Please Call	Yes
21AA	Yes	Yes	Please Call	Yes

typically perform on par their MDOT counterparts for most projects. While job specifications and project plans have to dictate what products are being used, next time check with your project manager or engineer to see where you may be able to save them money by substituting a commercial grade product. The 21AA commercial is great for driveways, parking lots, and sub bases. 6AA Commercial is great for pipe bedding, non paved driveways, and many other projects. Some of our locations always have these commercial materials in stock others have them available sporadically on those locations and products we listed "Please Call" above. If you have any questions regarding product availability please contact Ryan Lumpford at (734) 777-3396.

Customer Service

At Stoneco we always do our best to keep trucks moving in and out of our yards as your time is important to us. If there are any customer service issues including miss loads, time in plant, or any other issues please never hesitate to let us know so we can improve. Your business continues to be very important to us and anything we can do to improve your experience while at our locations will be taken with the highest priority. Please contact a Stoneco Sales Representative with any concerns or ideas.

Resolutions

With the coming of the new year it gives us a chance to look back on the past year and what we accomplished, things that we would change, and possibly make some New Years resolutions. An accomplishment we made was zero lost time accidents at all of our plants for the second year running. This comes from all of our employees taking safety to heart and management that makes safety first. Our resolution is simple, make it three years! From all of us at Stoneco please have a safe and happy New Year! And good luck on those resolutions!
