Safety First

Steve Draper has been a safety leader at Stoneco of Michigan and Michigan Paving and materials for over 15 years. During that time Steve was voted Oldcastle Safety Director of the year and saw to the safety and well-being of over 500 employees. Steve would tell you that safety is everyone's job, but everyone didn't come home early from a family vacation to be with an injured employee, Steve did. Steve is accepting a position with our sister company Shelly Materials in Ohio as Safety Director. His replacement Chris Abbott has been personally groomed by Steve and will be a great asset as Steve moves on. Please join us in wishing Steve the best, and in supporting Chris in his new role. We know both will do great!

Ida

Natural Fill Sand has been a part of our business in Monroe County since the old London Aggregates quarry in Milan, Mi. We have had a sand site in the Ida area for nearly 15 years. As of January this year our fill sand sales in Monroe County will be focused from our quarries and sand and gravel pits. For your fill sand needs please visit us at Ottawa Lake, Newport, and Denniston and we can accommodate with either MDOT Class II limestone sand or 3/8" Screenings. For Natural products we have MDOT Class II Natural available at our Zeeb Road location and MDOT 2NS sand available at Zeeb Road, Burmeister, and Moscow locations in addition to others on the west side of the state. If you have any questions regarding sand please contact your sales representative and they will be happy to assist you in finding an appropriate product for your project needs.

Face Time

We want to know our customers and understand their needs and business. One of the best way to accomplish this is a face to face meeting. If you don't know your salesperson please contact our customer service department at (734) 777-3396 to arrange a meeting.
